

Plan Asset Link (PAL)

Creating operational efficiencies through PAL

Plan Asset Link (PAL) is a process in which plan-level data is synced between recordkeepers and the RPAG Advisor Portal. This saves advisors countless hours of work by removing the laborious process of pulling plan lineup and asset information from recordkeepers' websites and manually entering all the data into the RPAG Portal. PAL provides the capability for plan lineups and asset balances to be synced on a monthly or quarterly basis, depending on the recordkeeper, to give you accurate, up-to-date, and efficient information.

PAL Process

1. Consent Forms

Download the consent form for your client's recordkeeper. These consent forms are stored on the RPAG Resource Center in the Plan Asset Link folder. Fill out the necessary information and have your client sign the form. Some advisors prefer to use an electronic signature service for these forms but bringing the consent form to a client meeting can often be the most effective way to get these signed.

2. Send Consent Forms to RPAG

Once your client has signed the appropriate consent form, send the executed form to PAL@rpag.com. The PAL Concierge Team will then process the form and work with the recordkeeper to establish the PAL data feed. Make sure that you have entered the accurate client contract ID number into the Plan Details section so the data feed from the provider can link to the correct plan.

3. Accept the PAL Data Feeds

PAL data feeds are linked within two weeks of the month or quarter end, depending on the provider. RPAG tracks and confirms each individual plan feed to ensure receipt by the advisor and will follow up with recordkeepers in the event of missing data. Before you run a report through RPAG, check the PAL feed status in the Plan Details section or on the Manage PAL Feeds page. Once you select the plan that you want to update, go through the PAL data syncing process.

New to PAL? Get trained by our PAL Concierge Team!

Our PAL Concierge Team is happy to walk you and your team through this entire process so that you can link all of your PAL-eligible plans. They have already helped countless advisors save time and be more efficient. Don't hesitate to contact them at PAL@rpag.com to begin your training today!
